Skyline Cloud Hosting Contract Summary

1. Parties and Term

The master services agreement between Corvane Systems and Skyline Cloud Hosting was renegotiated effective 1 July 2026 for a term of 3 years, ending on 30 June 2029.

2. Commercial Terms

Corvane commits to a minimum spend of 2.4 million USD per contract year. In exchange Skyline grants an 18 percent discount on list prices. Unused committed spend does not roll over to the next year.

3. Service Levels

Skyline guarantees 99.99 percent monthly uptime for compute. If uptime falls below the guarantee, Corvane receives service credits of 10 percent of the monthly fee, rising to 25 percent below 99.5 percent uptime.

4. Liability

Skyline's liability is capped at 12 months of fees paid. The cap does not apply to data protection breaches or gross negligence.

5. Termination

Either party may terminate for convenience with 180 days written notice after the first contract year. Termination for material breach requires a 30-day cure period.

6. Data Protection

All customer data must remain in the European Union. Skyline must notify Corvane of a personal data breach within 24 hours.
